

Continuing Education Options for Nurses & Certified Nurse Aides

Guideline: look for C.E. courses accredited by the American Nurses Credentialing Center Commission on Accreditation (ANCC) and / or approved by the Board of Nursing.

OTHER CEU OPTIONS

Education offerings by other healthcare disciplines may also apply toward your continuing education requirement. Examples are courses / classes offered by: physicians, social workers, chemical dependency therapists, activity or occupational therapists, dieticians, pharmacists, and physical therapists.

Additionally, college or university courses / classes that apply towards a degree in nursing (LPN or RN) above those courses / classes that were used for your original licensure or certification may also apply. The formula for converting college credit hours into contact hours is as follows:

- 1 academic semester credit hour = 15 contact hours
- 1 academic quarter credit hour – 12.5 contact hours
